**ROMP  
AROUND  
WISCONSIN**

Blue Kids One pilots undertake  
record-setting flight to benefit kids.

Blue Kids One pilots Matthew McDaniel and Bruce Kaufman. (Self-portrait taken at 14:50 CDT, between Boyceville-3T3 and New Richmond-RNH.)

On June 20, 2006, Children's Hospital of Wisconsin Pediatric Neurosurgeon and pilot Bruce Kaufman, MD, and Master Certified Flight Instructor and Midwest Airlines Pilot Matthew McDaniel accomplished a record-setting flight, nicknamed "Romp Around Wisconsin," that landed them at every paved, public use airport in Wisconsin, plus one private (Lake Geneva Aire Estates) and one military airport (Volk Field ANG Base). That's a total of 104 airports. The aircraft was a single-engine Cirrus SR-22 christened Blue Kids One in honor the hospital's "blue kids" logo.

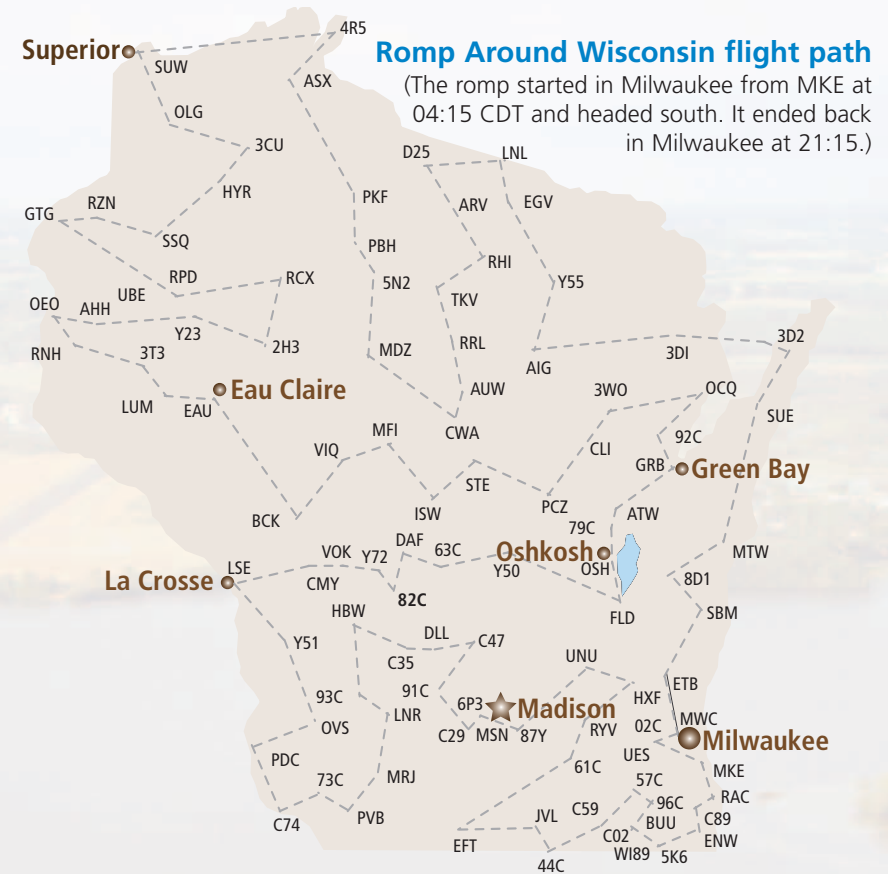

After 17 hours, three fuel stops and 2,119 nautical miles, they set a national flying record (certified by the National Aeronautical Association as a United States record). The flight was a fundraiser for the hospital's pediatric neurosurgery program, and the goal was to raise more than \$10,000. Kaufman is medical director of the program.

"Matt and I decided to tap into our love of flying, and combine it with our devotion to children, to create a different kind of fundraiser," Kaufman said. "Not only does this set a national record, but I'm hoping this adventure serves a greater purpose of raising awareness and funds for Children's Hospital."

McDaniel knows the effects of neurologic disease, having recently lost his brother-in-law to a brain tumor.

"I wish everyone could see the miracles that take place on a daily basis at Children's Hospital of Wisconsin," said Kaufman. "I am inspired by the children and families I meet, their strength and their courage."

All expenses associated with the flight were donated by the two pilots. To make a donation or for more information, go to [www.firstgiving.com/romp](http://www.firstgiving.com/romp). Checks can be mailed to Children's Hospital and Health System Foundation, Romp, MS 3050, PO Box 1997, Milwaukee, WI 53201-1997.
